Journal of Chemical Neuroanatomy

CONTENTS

Volume 6, Issue Nos. 1–6

VOLUME 6 NUMBER 1 **January/February 1993**

Calbindin D-28K and NADPH-Diaphorase Activity are Localized in Different Populations of Periglomerular Cells in the Rat Olfactory Bulb
J. R. Alonso, R. Arévalo, A. Porteros, J. G. Briñón, J. Lara and J. Aijón 1

Immunohistochemical and Behavior Pharmacological Analysis of Rats Inoculated Intranasally with Vesicular Stomatitis Virus
T. Andersson, A. K. H. Mohammed, B. G. Henriksson, C. Wickman, E. Norrby, M. Schultzberg and K. Kristensson 7

Terminals of Subthalamonigral Fibres are Enriched with Glutamate-like Immunoreactivity: An Electron Microscopic, Immunogold Analysis in the Cat
E. Rinvik and O. P. Ottersen 19

Neurons in the Ventral Subiculum, Amygdala and Entorhinal Cortex which Project to the Nucleus Accumbens: Their Input from Somatostatin-immunoreactive Boutons
R. L. M. Aylward and S. Totterdell 31

Morphological Characterization of Marginal (Lamina I) Neurons Immunoreactive for Substance P, Enkephalin, Dynorphin and Gamma-aminobutyric Acid in the Rat Spinal Cord
D. Lima, A. Avelino and A. Coimbra 43

Book Review 53

VOLUME 6 NUMBER 2 **March/April 1993**

Differential Organization of Synapses Immunoreactive to Phenylethanolamine N-methyltransferase or Neuropeptide Y in the Paravicellular Compartments of the Hypothalamic Nucleus of the Rat
G. Alonso 55

Morphological Relationships Between Tyrosine Hydroxylase-immunoreactive Neurons and Dopamine-β-hydroxylase-immunoreactive Fibres in Dopamine Cell Group A15 of the Sheep
Y. Tillet and J. Thibault 69

Neuropeptides in the Human Celiac/Superior Mesenteric Ganglionic Complex: An Immunohistochemical Study
M. Quartu, J. M. Polak and M. Del Fiacco 79

Collateral Axons of Cholinergic Pontine Neurones Projecting to Midline, Mediodorsal and Parafascicular Thalamic Nuclei in the Rat
R. F. Bolton, J. Cornwall and O. T. Phillipson 101

Book Review 115

VOLUME 6 NUMBER 3 **May/June 1993**

Regional and Laminar Variations in Acetylcholinesterase Activity within the Frontal Cortex of the Dog
G. Rajkowska, G. Niewiadomska and A. Kosmal 117

Neurochemical Alterations but not Nerve Cell Loss in Aged Rat Neostriatum
M. Zoli, F. Ferraguti, G. Toffano, K. Fuxe and L. F. Agnati 131

Synaptic Relationships Between Cortical and Dopaminergic Inputs and Intrinsic GABAergic Systems within Intrastriatal Striatal Grafts
D. J. Clarke and S. B. Dunnett 147

Coexistence of Amyloid β-Protein Precursor and Basic Fibroblast Growth Factor in Single Cells of the Rat Parietal Cortex, Hippocampus and Basal Magnocellular Nucleus
K. Imaizumi, H. Iwatu, S. Yoshida, G. Sun, N. Okumura and S. Shiosaka 159

Effects of Retinal Deafferentation on Serotonin Receptor Types in the Superficial Grey Layer of the Superior Colliculus of the Rat
P. Boulenguez, J. Abdelkefi, R. Pinard, A. Christolomme and L. Segu 167

Book Review 177

VOLUME 6 NUMBER 4 **July/August 1993**

Special Issue

Neuron–Glia Interactions

Guest Editor: S. Fedoroff, Department of Anatomy, University of Saskatchewan, Saskatoon, Canada

Neuron–Glial Interactions During the *In vivo* and *In vitro* Development of the Nigrostriatal Circuit
M. A. Gates, T. F. O'Brien, A. Faissner and D. A. Steindler 179

Patterns of Schwann Cell Myelination of Axons Within the Spinal Cord
S. A. Gilmore and T. J. Sims 191

What do Retinal Müller (Glial) Cells do for their Neuronal 'Small Siblings'?
A. Reichenbach, J. Stolzenburg, W. Eberhardt, T. I. Chao, D. Dettmer and L. Hertz 201

Possible Role of S-100 in Glia–Neuronal Signalling Involved in Activity-Dependent Plasticity in the Developing Mammalian Cortex
C. M. Müller, A. C. Akhavan and M. Bette 215

Astroglia–Neuron Interactions that Promote Long-term Neuronal Survival
C. Schmalenbach and H. W. Müller 229

Novel Neurite Growth-Inhibitory Properties of an Astrocyte Proteoglycan
M. Guo, K. E. Dow, R. Kisilevsky and R. J. Riopelle 239

Extracellular Ionic and Volume Changes: The Role in Glia–Neuron Interaction
E. Sykova and A. Chvatal 247

Microglial–Neuronal Interactions
W. J. Streit 261

Induction of Microglial Immunomolecules by Anterogradely Degenerating Mossy Fibres in the Rat Hippocampal Formation
B. R. Finsen, N. Tønder, G. Xavier, J. C. Sørensen and J. Zimmer 267

VOLUME 6 NUMBER 5 **September/October 1993**

Immunocytochemical Distribution of N-acetylaspartylglutamate in the Rat Forebrain and Glutamatergic Pathways
G. Tsai, B. S. Slusher, L. Sim and J. T. Coyle 277

Distribution of Dopamine-immunoreactive Neurons and their Relationships to Transmitter and Hypothalamic Hormone-immunoreactive Neuronal Systems in the Rat Mediobasal Hypothalamus. A Morphometric and Microdensitometric Analysis
M. Zoli, L. F. Agnati, B. Tinner, H. W. M. Steinbusch and K. Fuxe 293

Dendritic Arborization Patterns of Cortical Interneurons Labeled with the Lectin, *Vicia villosa*, and Injected Intracellularly with Lucifer Yellow in Aldehyde-fixed Rat Slices
H. Ojima 311

Autoradiographic Localization of (^{3}H)-L-Glutamate Binding Sites in a Model of Cerebellar Granule Cell Ectopia Generated by Methylazoxymethanol Treatment
F. J. Garcia-Ladona, J. M. Palacios, C. Girard, J. de Barry and G. Gombos..... 323

Book Reviews 331

VOLUME 6 NUMBER 6 **November/December 1993**

Infrequent Cellular Coexistence of NADPH-Diaphorase and Calretinin in the Neurosecretory Nuclei and Adjacent Areas of the Rat Hypothalamus
R. Arévalo, F. Sánchez, J. R. Alonso, M. Rubio, J. Aijón and R. Vázquez..... 335

Calcitonin Gene-related Peptide-like Immunoreactivity in Spinal Cord and Superior Cervical Ganglion of the Djungarian Hamster (*Phodopus sungorus*)
S. Reuss..... 343

Delta Opioid Receptor mRNA Distribution in the Brain: Comparison to Delta Receptor Binding and Proenkephalin mRNA
A. Mansour, R. C. Thompson, H. Akil and S. J. Watson 351

The Distribution of Dopamine D2 Receptor Heteronuclear RNA (hnRNA) in the Rat Brain
C. A. Fox, A. Mansour, R. C. Thompson, J. R. Bunzow, O. Civelli and S. J. Watson, Jr 363

Cholinoceptive Cells in Rat Cerebral Cortex: Somatodendritic Immunoreactivity for Muscarinic Receptor and Cytoskeletal Proteins
N. J. Woolf..... 375

Intravenous Administration of Interleukin-1β Induces Fos-like Immunoreactivity in Corticotropin-releasing Hormone Neurons in the Paraventricular Hypothalamic Nucleus of the Rat
J. G. Veening, M. J. M. van der Meer, H. Joosten, A. R. M. M. Hermus, C. E. M. Rijnkels, L. M. Geeraedts and C. G. J. (Fred) Sweep..... 391

Parvalbumin and Calbindin in the Rat Claustrum: An Immunocytochemical Study Combined with Retrograde Tracing from Frontoparietal Cortex
R. Druga, S. Chen and M. Bentivoglio 399

Postnatal Calcitonin Gene-related Peptide in the Superior Olivary Complex
D. D. Simmons and J. Raji-Kubba..... 407

Synaptic Inputs of Tachykinin-containing Nerve Terminals to Target Tyrosine-hydroxylase-, β-Endorphin-, and Neuropeptide Y-Producing Neurons of the Arcuate Nucleus. Double Pre-embedding Immunocytochemical Study in the Rat
R. Magoul, P. Dubourg, W. Benjelloun and G. Tramu 419

Tyrosine Hydroxylase-immunoreactive Cell Groups in the Brain of the Teleost Fish *Gnathonemus petersii*
J. Meek and H. W. J. Joosten 431

Referees 1993 447
